

Niles' Florida

compiled and edited by
David D. Fowler

*Discover the Key Players
in the birth of Florida*

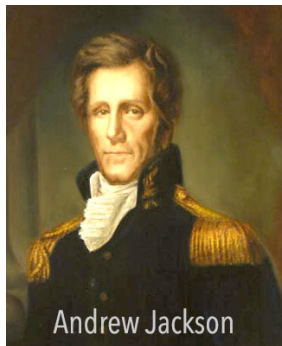

*Learn how the Seminole
Wars really began.*

**Relive Florida's history
through the eyes of the
people who were there
between 1811 and 1849.**

Discover Florida's history as it was published by one of America's premiere newspapers. *Niles' Weekly Register* is considered an important source for the history of the period.

Andrew Jackson

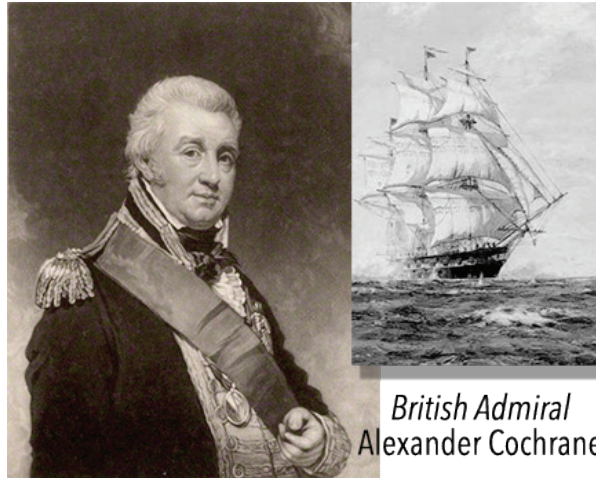

Live the experiences of Florida's birth through the eyes of the people who were there. It's the best history lesson you will ever get.

Learn how each player was involved:

- Spaniards
- British
- Americans
- Creek Indians
- Seminole Indians
- Africans

Watch first-hand the British involvement in Spanish Florida. Witness their attempts to recruit Indians and Africans preparatory to an eventual attack on the southern flank of the United States at New Orleans.

British Admiral
Alexander Cochrane

Learn about the role of *Osceola* and discover what actually happened to him.

David Porter

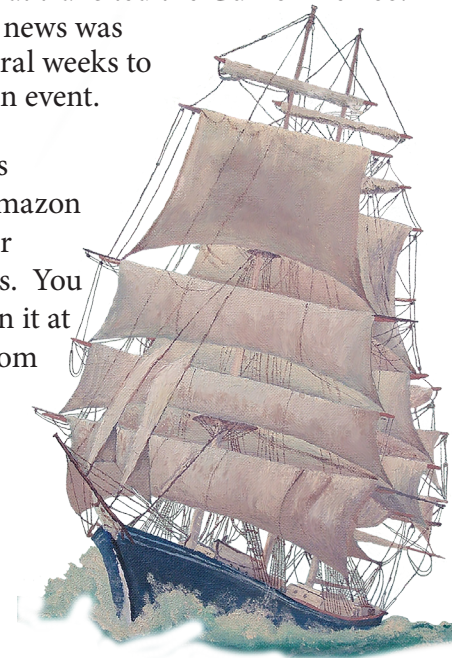

The actions of Navy Commodore David Porter against the marauding pirates are heroic on a par with the actions of General Jackson at New Orleans. Yet, the real enemy of the sea-faring defenders of Florida is *Yellow Fever*.

The Indians and Africans are threatened, cajoled, and bribed, and yet they continue to fight side-by-side against the Americans in what became the most expensive Indian wars in our history.

The fastest means of communication was by sailing ships that transited the Gulf of Mexico. Consequently, news was published several weeks to months after an event.

Niles' Florida is available on Amazon in hard-copy or Kindle versions. You may also obtain it at fowlerlibrary.com
